

InstantTM Notify

Business

A notification and
callout system
guaranteed to
improve your efficiency

*Instant Notify-Business
allows a more efficient
method to communicate
because it eliminates
the time and expense
associated with phone-
tree communications
and the technology
costs required to
purchase and maintain
traditional auto
message systems.*

Today's businesses need help and **Instant Notify-Business** has the solution. It can be used to contact customers and remind them of a new product you are launching or of an outstanding balance or to tell employees the office will be closed today due to the weather. Use it to remind people to vote or inform them the power will be off in their neighborhood tomorrow. The called person can even dial 0 to speak to someone live at your office to receive additional information. The applications are endless! Whether you need to contact customers, patients, employees, whomever..... At ANYTIME, **Instant Notify** can do the job.

Instant Notify-Business is a perfect tool to get your message through because it can be delivered to a standard phone, a cell phone or an answering machine. Up to 100 lists can be created consisting of 1000 names per list.

Depending on the situation, **Instant Notify** can be told to *Notify All List Members, or just certain customers located in a certain geographic location or just employees, you decide!*

Emergencies in business environments can't be avoided. Owners, managers employees, patrons and family members can now rely on **Instant Notify** to inform them of important information in a timely fashion. Faster, more reliable messages to a variety of locations increase the likelihood that the message will get through.

Messages can be recorded real time and/or prepared beforehand to address almost any type of campaign. Messages can also be recorded remotely from any telephone and lists can be created locally or remotely.

Isn't it time you put **Instant Notify-Business** to work for you?

Instant Notify-Business is ideal for any type of business including Utilities, Sports Organizations, Credit Card Companies, Retail Outlets, Veterinarians, Government offices, Libraries, Insurance Companies, Collection Agencies, Religious Establishments, Medical Facilities, Law Enforcement, Travel Agencies, Political Campaign Offices and more. **Instant Notify** can connect to your telephone system and utilize your existing telephone lines to make its callouts. And it allows for easy transfer of existing exportable CSV file databases. Creating callout list (s), recording messages and selecting options is incredibly easy so setup time is a snap and **Instant Notify** is located in **your** facility so all of the information remains completely confidential.
